

ENGLISH SYLLABUS YEAR 3

2023-2024

This year we will focus on language development and communication skills. Your child will learn lots of English words and some useful phrases, new songs and rhymes.

We shall be using many storybooks and some DVDs. The children will become aware of letters and sounds and how words rhyme in English. They will be encouraged to love books.

Our aim is to build confidence and enable children to become independent in order to be prepared for primary school. We shall give importance to daily routine and help them to understand more about the world around them and the passage of time by talking about the days of the week, the months and the seasons. The children will also be learning to make deductions, quantify and recognize numbers.

Like previous years, we will celebrate various festivals during the year allowing children to create crafts to improve their fine motor skills.

Children learn best when they feel comfortable and safe in their environment and young learners enjoy participating in activities such as painting, drawing, modelling, singing, playing games, listening to rhymes and stories and acting them out. One of our aims is to make learning as much fun as possible. We strongly recommend that you (parents) offer help and encouragement and share the FUN!
